

Virtual Summer Camp 2020 for STEM, English, Art and Islamic Studies and More

The weekly lessons have been thematic: each week children have learned about a new topic based on the carefully selected theme of the week.

The duration of the summer camp was 6 weeks, meetings held twice a week. The zoom sessions were 45 minutes long and have been recorded and include:

- A circle time, discussing the weather, introduction to the topic of the week, and a welcoming “Salam” song.
- Classes were led by Sr. Naz Hassan, Sr. Sumra Hassan and Sr. Batul Jamali on alternate weeks.
- Islamic songs, poems, interactive activities and lessons about the weekly theme. A weekly activity was emailed to parents and showcased during class time.
- A cognitive game to practice essential skills such as letter ID, letter sounds, colors, shapes, and number identification. We also worked on patterns, rhyming, and memory games.
- A read-aloud story
- Islamic Studies and Quranic lesson derived from the weekly theme was presented by Maulana Rizwan Rizvi

The students enjoyed participating and learning about new and exciting concepts in an interactive way right from home.

Please see below some of the wonderful work of our students.

"My 5 Senses"

Match the image to the correct sense. If you think there is more than one sense that corresponds, then draw multiple lines. Color in the images once finished!

ETES

MOUTH

EARS
